Deborah Lighthart

Psychic Advisor, Healer & Visionary Artist

Having been in business as a professional psychic & tarot card reader for over 10 years, Deborah has helped thousands of people all over the world to understand their lives and relationships, to raise their awareness, enlighten themselves and achieve their true potential. Her readings are beneficial to believers and skeptics alike, offering information that “hits home” and insights that are personal and unique to each individual. Her caring, compassionate nature puts people at ease and helps them to stay open to the honest, accurate messages that come through her. Whether it is by phone, in person or via email, people leave their readings with Deborah feeling uplifted, peaceful and comforted by the truths that have been presented. She & her Spirit Guides work to bring forth messages that help each person to “see the Light” and to feel empowered by connecting to the Light that already exists within them.

Deborah has taught classes & workshops and lectured on many different topics, ranging from meditation & psychic awareness to tarot card reading & energy healing. Her classes and lectures involve a lot of audience participation, so not only does everyone get to know each other better, but also they get personal attention and direction from Deborah herself. Even in large groups, Deborah finds a way to touch as much of the crowd personally as possible, offering group messages and instruction for those working on similar spiritual paths. Audiences are captivated by her gentle approach and set at ease by humorous stories of her personal life experiences. She brings enlightenment to her students & listeners and helps them to find the answers that already exist within them, getting people out of their heads and into their hearts, which is where all of our true wisdom lies. People leave her classes and lectures feeling as though they have learned a lot about themselves and their world and feel the strength they need to trust their path in life.

As a visionary artist, Deborah paints in a contemporary, abstract manner. The messages, insights and understandings that come through her as a psychic are channeled into her creative expressions. The energy her work exudes raises the vibration of the space it occupies and the people that view it. Customers are drawn to pieces that vibrate the spiritual lessons that they are currently exploring. For display purposes, she often includes a small description of her intent with the work, helping the viewer to begin to understand the abstract images, but it is only a beginning. Every image is created with a wealth of knowledge to be found only in meditating on the shapes, symbols & colors in each piece, guiding the viewer to find their own enlightenment and create their own spiritual understanding. Her work is found to be uplifting & soulful with a cutting edge, modern feel, definitely art that speaks to the heart, mind & spirit in an innovative & inspiring way. Deborah creates work for a wide variety of uses from small, inspirational 2x3” Pocket Angels (retail value: \$1.95/each) to large 4x8’ customized exterior wall art (retail value: \$1600). If you have a need for soulful, modern art, Deborah is here to fulfill it.
